SPACEGUARD

A long, industrial-grade fabric cutting table is shown in a warehouse environment. The table has a grey top surface and a light-colored wooden base with multiple shelves underneath. It is supported by metal legs with casters. In the background, there are metal racks and a red safety railing.

INDUSTRIAL FABRIC CUTTING TABLES

Spaceguard cutting tables are made to the highest quality ensuring you receive a work table that is durable and long lasting. Should you require additional features, these cutting tables can have drawers, shelves & roll holders to take equipment, patterns and materials, along with space underneath the cutting table for box storage, and all incorporated within the design.
