Cable Drum Rollers / Dispensers

Cable drum rollers, or dispensers are ideal for de-coiling and recoiling cable or wire during electrical installations. Once in position they can easily be rotated allowing easy discharge of cable, they also have ramp entry to ease the loading of the drum onto the rollers. All our drum rollers are fitted with heavy duty rollers which can be adjusted to suit smaller cable drums.

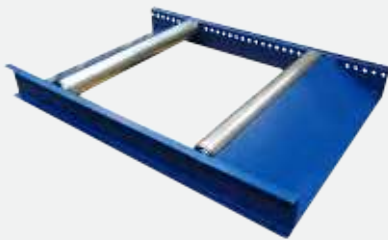

Medium Duty Cable Drum Roller (80kg)

Smallest dispenser in our range, suitable for various site work & installations. Rollers can be adjusted within the frame to accommodate different size drums

Specifications:

- Dimensions: **L545mm x W475mm x H100mm**
- 50mm Diameter Mild Steel Rollers
- Support Drums weighing up to **80kg**

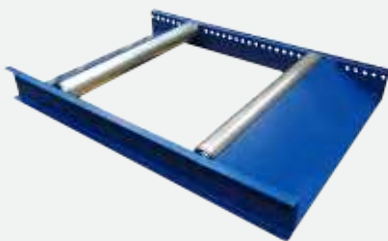

Heavy Duty Cable Drum Roller (350kg)

Most popular cable drum roller suitable for site work/installations. Heavy Duty rollers can be adjusted within the frame to accommodate various drums

Specifications:

- Dimensions: **L910mm x W650mm x H100mm**
- 63mm Diameter HD Mild Steel Rollers
- Support Drums weighing up to **350kg**

Heavy Duty Cable Drum Roller (700kg)

Similar design to our 350kg product however uses stronger bearings and can support slightly wider drums (Up to 700mm) while still be adjustable.

Specifications:

- Dimensions: **L910mm x W750mm x H100mm**
- 63mm Diameter HD Mild Steel Rollers
- Support Drums weighing up to **700kg**

Adjustable Cable Drum Set (1000kg)

Largest Dispenser in our range, comes complete with 2 x 1m steel bar to keep pair straight, Fully adjustable design allows any large drums to be used.

Specifications:

- Dimensions: **L1220mm x W100mm x H100mm** (Each Channel)
- 63mm Diameter HD Mild Steel Rollers
- Support Drums weighing up to **1000kg**
