

UK Manufacturer of packing tables & benches for a range of industrial uses.

Floral Industry

One area Spaceguard focus on is the floral industry. We can manufacture a range of fully bespoke solutions suited to these environments. Fully welded and ready for us these robust tables will give you years of reliable use. Some of the options we can offer on these tables can include the following:

Stainless Steel Worktops

Ideal for handling wet produce and suitable for easy cleaning

Mild Steel construction

Robust welded frame which keeps costs down

Additional Shelving

Either flat or can be angled to hold flower boxes and trays

Additional Bespoke Racking and Rails

Ideal to support products and boxes whilst keeping the table free for packing

Proven Industry Experience

We have worked closely with flower companies in the past including Arena Flowers, JZ Flowers & Butters Flowers to name but a few.

About Us

Spaceguard manufacture packing tables & stations for a full range of industries from contract packing, automotive, electrical or food handling to name but a few.

We work closely with all our customers to understand their product, how they currently operate and their requirements, taking into account various challenges & obstacles each industry may face. In doing so this enables us to design and manufacture bespoke tables to fit your exact requirements whilst keeping costs low all on a quick lead time.

Fully Bespoke Solutions

We can supply these tables in any dimensions to suit, lengths widths or heights or frame colours to your requirements for either new installations or to compliment existing packing lines.

We use only the highest quality materials and components ensuring you receive a robust, bespoke product that will handle years of use.

Spaceguard offer a full range of packing tables for all industries, to view more of our products visit
