

Material Dispensers & Cutters

Spaceguard manufacture both packing material dispensers and cutters as standalone products to compliment our packing table range.

Both our dispensers and cutters are suitable for all typical packing material including brown paper, card and bubble wrap and are manufactured to suit the most commonly used rolls. Fully welded these robust products can also be supplied on castors for added mobility and ease of repositioning, making them a perfect portable solution for your packing needs.

Features

- Fully welded box section construction ready for immediate use.
- Both dispenser and cutter available in 4 different sizes to cater to the most commonly used roll lengths (750mm, 1000mm, 1250mm & 1500mm)
- Standardised heights ensure both dispensers will take 600mm diameter rolls
- Swivel lockable castors available for ease of repositioning when product not required.
- Cutter design works by weighted bar holding roll in place while cutting material into required lengths effortlessly.
- Blade on cutter designed to last for years, however can be easily replaced in minutes.
- Standard colour of RAL5010 (Blue) durable powder coat finish, however any colour available.

Bespoke Design

- Products can be manufactured to suit none standard rolls. (Lengths or diameters)
- Can be designed to be wall mountable instead of stand alone.
- Cutter integrated into specialist "cutting tables" up to and over 3m, ideal for shrink film and sign making.
